

We extend our heartfelt gratitude to our esteemed sponsors and partners whose unwavering support made the **28th Colloquium** possible. We invite you to explore the diverse offerings of our exhibitors during breaks, showcasing their exceptional products and services that enhance cybersecurity education.

### Marquee & Academic Partner

The University of Tampa's major in cybersecurity is a cutting-edge program that teaches students to protect the confidentiality, availability and integrity of information and information systems that support modern organizations. Students receive a comprehensive education that focuses on both the fundamentals of information systems as well as advanced topics in areas such as network security, cryptography, risk management, security governance, business continuity, security architecture, physical security and critical infrastructures.
