27th Colloquium - Countering the Global Cyber Threat through Educational Intervention

The 2023 conference of the Colloquium on Information Systems Security Education (CISSE) celebrates its 27th year as the senior and premier conference on Cybersecurity Education. Participating in the Colloquium are representatives from education, industry, and government with an interest in conducting productive conversations, present new ideas, and improve the content and curricula for cybersecurity education. The following is a preliminary agenda for the 27th Colloquium, to be held at Kennesaw State University - [KSU Center](#). This resource will be updated periodically leading up to the November event. Please direct any questions to Andrew Belon at abelon@thecolloquium.org.
